

PRIVACY POLICY STATEMENT

Provider wants you to understand how we use the information you provide to us. We believe that you should have the right to approve the use of that information. As technology changes, it will become necessary for Provider to make changes to its privacy policy and procedures. All such changes will be posted to this site.

How We Gather Information

Our site's registration form requires users to give us contact information (like their name, email, and postal address), unique identifiers (like their social security number), and demographic information (like their zip/postal code, age, or income level). Contact information from the registration forms is used to provide information about our company. The customer's contact information is also used to get in touch with the customer when necessary. Unique identifiers (such as social security numbers) are collected from Web site visitors for use as account numbers in our record system.

Demographic and profile data is also collected at our site. We use this data to tailor our visitor's experience at our site showing them content that we think they might be interested in, and displaying the content according to their preferences. We also use this data to send host sites their royalty payments. This data is not available for sale to any outside entity.

Additionally, users should be aware that when they voluntarily disclose personally identifiable information (e.g., user name, e-mail address) on non-secure areas of Provider's site, that information, along with any substantive information disclosed in the user's communication, can be collected and correlated and used by third parties and may result in unsolicited messages from other posters or third parties. Such activities are beyond the control of Provider.
