

## **DEAD ANIMALS ON THE WORKSITE POLICY**

---

### **Purpose:**

To recognize and address the fact that dead animals on construction or other worksites pose a risk of disease or illness to workers who may come into contact with it.

### **Scope:**

This policy applies to all workers of this company and contract workers who may need to remove the carcass of a dead animal to continue with their work.

It is preferable to avoid handling dead animals. However, if they must be removed from the worksite then the following procedure must be implemented:

- Use tools such as shovels to avoid direct contact with the animals.
- Wear medical examination gloves that provide a protective barrier between your skin and blood or other body fluids:
- Wear two pairs of gloves if one pair alone might tear.
- Wear the medical examination gloves as the inner pair.

**THIS IS A 1-PAGE SAFETY POLICY. THE FOREGOING IS A PARTIAL VIEW.**
